### Professional Summary

Full Stack Developer with hands-on experience with web development, build and deploying microservices. Proven expertise in CI/CD, DevOps, and agile development. Skilled in using technologies such as React, JavaScript, Spring boot And Kubernetes.

### Relevant Experience

- **Barclays – ( Full Stack developer – BA3 ) ( 1 Aug 2022–Present )**
  - Learned and worked on a diverse tech stack: Spring Boot, Java, Jenkins, Kubernetes, OpenShift, React, Node.js, and more. Successfully deployed approximately 50 microservices on a new OpenShift environment, later replicating the deployment in the production environment.
  - Setup infrastructure from development to production environments, configuring Jenkins pipelines, Vault, Consul, Cookbook, and API gateways.
  - Developed external APIs to connect with third-party services and internal APIs, implementing security measures, and utilizing Token Management System (TMS) to meet compliance requirements.
  - Implemented automation of CI/CD for all microservices as part of addressing technical debt, improving efficiency, and reducing manual efforts.
  - Addressed a critical production issue by modifying legacy code in microservices to resolve a data connection leak problem. Fix and Added logs tracing issue for ESAAS in microservices, enhancing monitoring and traceability.
  - Received four recognitions in a year for contributions to various projects.
  - Integrated security measures such as Veracode and Sonar steps into the build pipeline, ensuring code quality and security compliance.
  - Engineered customer pipelines for all microservices, streamlining deployment processes and saving approximately 600 repetitions across all environments.
- **Rightpoint, a Genpact company – ( Associate developer ) ( Feb 2022– June 2022 )**
  - As Designed, developed, and deployed web applications using TypeScript, React, and JavaScript.
  - Utilized React and Redux for efficient state management, resulting in improved application performance.
  - Contributed to the team's efficiency by creating reusable components and hooks.
  - Collaborated in Agile development to deliver projects on schedule.
- **Mentee Softech – (Intern) (Oct 2020 – Jan 2022)**
  - Worked on an open banking project using React, managing authentication and connecting frontend with backend APIs.
  - Developed a React-based web application for a marketplace, allowing users to upload product images and details.

### Skills

**Front-End:** HTML, CSS, React, JavaScript, TypeScript    **Back-End:** Java, Spring boot, Nodejs

**DevOps:** OpenShift, Kubernetes, Jenkins, Chef cookbook (Ruby on Rails)

**Other:** Git, Postman, SoapUI, Tailwind, bootstrap, Open API, Nexus, Vault, Consul, TMS

### Education and Qualification

- Graduated in Computer Science and Engineering from Arya College of Engineering & I.T., Jaipur (affiliated to RTU) with a Bachelor of Technology degree, achieving a 65% aggregate in 2021.
- Completed Senior Secondary and secondary education from RBSE with respective 87% marks in 2016 and 88.50% marks in 2014.

### About

**Date of Birth:** Dec09,1999

**Nationality:** Indian

**Interests:** Anime, Cooking

**Location:** Nagaur, Rajasthan
